CS077 / WEEK 8 / EVENT PIPELINE
From a need to a useful result.
01
USER NEED
Why does this exist?
02
CONTROL
What can the user touch?
03
EVENT
What action was heard?
04
METHOD
What focused work runs?
05
DATA / MEDIA
What changes?
06
STATUS / FILE
What can the user see or keep?
ATTENTION FIRST CHECK
Is the first action clear? Is feedback visible? Can the user recover without losing work?
